

## Project 1: Reading Annotations

**OBJECTIVE** This project is simple, for every week of the semester there will be readings assigned and a class discussion / presentation. This assignment calls for each student to read all of the requisite readings and fill out the 'Reading Annotations Template' that is provided on the class website. This template should serve not only as a note taking device for you as you read through everything but also serve as a means to kick start the class discussion and have helped your form an opinion to contribute to the discussion.

**METHOD** Read the readings, collect your thoughts on the provided template, be prepared to discuss intelligently in class.

**READINGS** Provided on course website on the week prior (at minimum)

**REQUIREMENTS** The provided template outlines all of the required information that is requested for response

**GRADING** The weekly responses will be weighted equally from week to week and will be evaluated for completeness as the primary criteria - content will be evaluated but understood not to be final product and an in process work.

**DATES** Due prior to class each week.
